The Great Computer Challenge
Graphic Arts

Level II

Food of the Future

You will work on two problems.   Remember to include as much detail as you can. You **are not allowed** to use clip art, stamps, animation, or other objects in the first problem, but you **may** use them in the second problem.   If you finish early, go back and add extra things which will make your design prettier and more detailed.

You have been blasted into the future. It is the year 2099, and the things you eat and how you prepare them are different than they were in 2008.

Picture 1: Cooking at Home in the Future
Draw a picture of your kitchen and how you or your family would prepare a meal in the year 2099. *Remember, no clip art, stamps, or other objects can be used in this picture. All the drawing is your own.*

Picture 2: Fast Food of the Future
Your team will own a fast food restaurant of the future. In the year 2099 what will getting fast food for dinner be like? Select one thing about a fast food restaurant that you think will be different and draw a picture of it. *Remember, you may use clip art, stamps, or other objects in this picture, but you don't have to.*

If you finish early, use the time to add additional details.

Remember:
- Save your work every few minutes.
- Your picture must be printed by the time the contest is over.
- Leave your picture up on the computer screen when you leave.

Have fun! And thanks for entering the Great Computer Challenge!
