

Digital isn't a foreign language. It's what we speak.

We're WHRO, educational technology leaders with 50 years of proven experience, developing purpose-built digital content for professional development, classroom instruction and blended learning.

WHRO Education offers a broad range of free and fee-based online content and development services to meet the needs of school divisions, educational publishers and learning specialists, including textbook independent online courses, professional development, educational software, apps, instructional design and production services.

eMediaVASM

Our state-wide digital distribution platform is the online learning library that never closes. With award winning content from PBS, NPR and public media organizations across the US, NASA, the Smithsonian Museums, the National Archives and dozens of other outstanding sources, eMediaVA offers teachers and their students a premier learning resource.

Tens of thousands of digital learning objects, video, audio, interactive and graphic elements, all correlated to Virginia Standards Of Learning, are available for free to every teacher and student in the Commonwealth.

eMediaVA's open source framework, secure LDAP integration and local host options are easy on bandwidth use, helping school divisions control the cost of providing high quality digital content for classroom and home use with minimal administrative overhead.

For more information or to arrange access for your school, contact **Angie Callahan** at angie.callahan@whro.org or call her at 757.889.9407.

www.eMediaVA.org

"eMediaVA is the go to resource for our faculty. There's nothing like having a one stop resource that helps educators instruct children at their learning levels in so many ways."

- Virginia Teacher

WHRO EDUCATION online courses

WHRO's catalog of textbook independent, teacher-led online high school courses offers a cost-effective, proven foundation for every school division's digital curriculum. Each course contains hundreds of online learning objects, dozens of instructional and assessment modules and media rich interactive elements, mobile device apps and more.

Used by school divisions across Virginia, WHRO's blended learning approach provides teachers with a sound framework, rich resources and the ability to add and modify content from a wide variety of sources, including WHRO's eMediaVA.

Administrators will find WHRO's one-time, single fee approach uniquely suited to their budget needs, and with flexible support and course refresh options, there is never a concern about courses being out of date.

To learn more about WHRO's online courses or to preview one, contact **Byron Walker** at byron.walker@whro.org or call him at 757.889.9447.

WHRO EDUCATION
**professional
development**

To maintain their skills and certifications, educators need access to flexible professional development resources. WHRO's catalog of online professional development courses, hands-on workshops and decades of experience in the use of technology as an instructional tool is an unmatched source for any educator.

WHRO Education is a partner with VSTE and PBS TeacherLine®, offering online access to more than 90 six-week long standards-aligned courses in reading, math, science, instructional strategies, social sciences and instructional technology.

Every course is eligible for graduate credit, professional development points or continuing education credits and, because PBS TeacherLine® is a US Department of Education grant recipient, our courses are affordable.

For more information about WHRO's professional development resources, contact **Byron Walker** at byron.walker@whro.org or call him at 757.889.9447.

WHRO EDUCATION
**production
services**

WHRO's in-house staff of instructional designers, writers, online & mobile app developers, producers, videographers, graphic artists, recording engineers and announcers offers turn-key production and development services for school systems, educational publishers, defense contractors and industry training organizations.

Together with our national network of curriculum and standards correlation experts, our production team can assist any educational technology project, providing timely results at competitive rates.

For consultation on your project, contact **Brian Callahan** at brian.callahan@whro.org or call him at 757.889.9453.

"The courses were very informative-especially the TECH course. I learned so much in a short amount of time and have already begun to implement some of the strategies in my classroom. I have shared some ideas with other teachers as well."

- Mrs. Kim Domin, Virginia Teacher

"More and more school divisions are turning to online professional courses for a variety of reasons and WHRO has emerged as a leader in digital content needs of Virginia educators. The course offerings are readily available, convenient, interactive, self-paced, and, in the current economic restraints, cost-efficient, which in a small district we could never replicate the level of service and support WHRO offers."

- Mrs. A. Katrise Perera,

Division Superintendent, Isle of Wight County Schools
